Official Entertainment Website — README

Static responsive website starter for Official Entertainment LLC. This is not a verified exact reproduction of the existing Relume website.

Deployment

• Create or use the private GitHub repository: Urfavsin03/official-entertainment-website.

• Upload index.html to the repository root. The PDF is documentation only; it does not replace index.html.

• In Netlify, choose Add new project → Import from Git → select the repository.

• Build command: leave blank. Publish directory: . (repository root).

• Preview the deployed website and check all links and content before changing any existing domain or retiring Relume.

Link inventory

• Prior Relume site: https://qgg6swj9.relumesite.ai (not verified during migration).

• Gumroad e-book: https://cherryspark28.gumroad.com/l/ijbngb

• Creator Vault: https://creatorvault-app.netlify.app (private validation only; do not invite public signup).

Outstanding checks

• Compare against the existing Relume layout and approved assets.

• Confirm official domain, social media links, music destinations, and approved animation materials.

• Add appropriate privacy, contact, and legal information before collecting personal data or enabling website checkout.

• Keep Creator Vault in a separate repository and do not modify its code.
